Digital foundation skills

The skills that underpin all other essential digital skills.

I can:

1) turn on a device
(e.g. turn on my tablet and enter my passcode or other security information) ☐

2) use the available controls on my device
(e.g. use a mouse and keyboard on a computer, use a touch screen on a smart phone or tablet) ☐

3) make use of accessibility tools on my device to make it easier to use
(e.g. use settings menus to change device display to make content easier to read) ☐

4) interact with the home screen on my device
(e.g. find applications by choosing the correct icons on the home screen) ☐

5) understand that the internet allows me to access information and content and that I can connect to it through Wi-Fi ☐

6) connect my device to a safe and secure Wi-Fi network
(e.g. connect a device to the internet using the Wi-Fi settings, and insert the password when required) ☐

7) connect to the internet and open a browser to find and use websites
(e.g. locate the browser icon on a device and find a website) ☐

8) understand that my passwords and personal information need to be kept safely as they have value to others
(e.g. keep login information for a device and any websites secure, not shared with anyone or written down and left prominently near my device) ☐

9) update and change my password when prompted to do so ☐
